

BDP2 - PRESENTATION (30%)

| (PRE1) Effective delivery of ideas (Weightage:4)                                                                                                                           | PO10: Communications<br>TA5 |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|
| Displays excellent familiarity of the project through effective delivery of ideas.                                                                                         | 10 9                        |
| Displays good familiarity of the project through effective delivery of ideas.                                                                                              | 8 7 6                       |
| Displays fair familiarity of the project through effective delivery of ideas.                                                                                              | 5 4 3                       |
| Displays poor familiarity of the project with non-effective delivery of ideas.                                                                                             | 2 1                         |
| No presentation.                                                                                                                                                           | 0                           |
| (PRE2) Poster (Weightage:5)<br>(Elements: Project title, introduction, problem statement, objectives, methodology, results and analysis, conclusion and SDG related logo ) | PO10: Communications<br>TA2 |
| Excellent presentation of project where all the required <i>elements</i> are clearly visible, organized, and relevant.                                                     | 10 9                        |
| Good presentation of project where most of the required <i>elements</i> are clearly visible, organized, and relevant.                                                      | 8 7 6                       |
| Fair presentation of project where some of the required <i>elements</i> are clearly visible, organized, and relevant.                                                      | 5 4 3                       |
| Poor presentation of project where few of the required <i>elements</i> are clearly visible, organized, and relevant.                                                       | 2 1                         |
| No poster is presented.                                                                                                                                                    | 0                           |
| (PRE3) Project Implementation (Weightage:9)<br>(Elements: appropriate techniques, resources, and engineering tools)                                                        | PO5: Tool Usage<br>SK6; SP2 |
| Demonstrates excellent ability to consider variety of elements to develop the product/project.                                                                             | 10 9                        |
| Demonstrates good ability to consider variety of elements to develop the product/project                                                                                   | 8 7 6                       |
| Demonstrates fair ability to consider variety of elements to develop the product/project                                                                                   | 5 4 3                       |
| Demonstrates poor ability to consider variety of elements to develop the product/project                                                                                   | 2 1                         |
| No demonstration is provided                                                                                                                                               | 0                           |
| (PRE4) Project Functionality (Weightage:12)<br>(Elements: Meets project objectives and scope of works)<br>**Students are advised to provide recorded video presentation    | PO5: Tool Usage<br>SK6, SP3 |
| Excellent functioning project                                                                                                                                              | 10 9                        |
| Good functioning project                                                                                                                                                   | 8 7 6                       |
| Fair functioning project                                                                                                                                                   | 5 4 3                       |
| Poor functioning project                                                                                                                                                   | 2 1                         |

|                              |  |
